Telephone (727) 464-8200

U. S. 19 is 33 miles long and serves as the major roadway in Pinellas County from the Sunshine Skyway into Pasco County. Carrying 90,000 vehicles per day, this roadway serves as an important regional roadway and also provides direct access to businesses and residential areas.

As part of an extensive safety program, Pinellas County installed "way-finding" signs along the road in 1/4 mile intervals. These signs are violet and display the sign location's address. The signs are intended to help motorists and reduce the confusion created when trying to find an address.

This brochure includes a map displaying the address numbers for the major corridors intersecting US 19. This map is also located in the Verison Yellow SuperPages..

It is always a good idea to call ahead for directions and landmarks if you are unsure of the exact location of your destination.
