Connecting to new Cisco wireless infrastructure from an iPhone running IOS 7

Start on the main screen and press the settings icon:

Next, touch the Wi-Fi entry:

•••• A	T&T 3G 3:16 PM	68% —)
	Settings	
≻	Airplane Mode	\bigcirc
?	Wi-Fi	Off >
*	Bluetooth	Off >
((A))	Cellular	>
VPN	VPN	\bigcirc
	Notification Center	>
	Control Center	>
	Do Not Disturb	>

"Swipe" the Wi-Fi button to the right to enable it:

●●●●○ AT&T 3G	3:16 PM	68% 🔳
Settings	Wi-Fi	
Wi-Fi		\bigcirc
Location accuracy Wi-Fi is turned on	y is improved	when

After doing this, all of the available wireless network that the device "sees" will be displayed. Select "Pinellas_BYOD":

Pinellas_Test	∻ (i)

At this point, you *may* be asked to enter your passcode if you have this feature enabled:

•••• AT&T 3G	3:19 PM	67% 🔳			
E	Inter Passcode	e Cancel			
Enter your passcode					
1	2 ^{ABC}	3 Def			
4 _{GHI}	5 JKL	6 ^{MNO}			
7 PQRS	8 TUV	9 wxyz			
	0	$\langle \times \rangle$			

After a short time, a request to enter your credentials will appear. Enter your Username and Password, and press the "Join" entry near the top right of the screen.

After a short time, the screen below will appear that will provide you with your certificate. Select "accept" to do this:

The next screen that you'll see if the Wi-Fi settings, which should now show a successful connection to the "Pinellas_BYOD" network.
