

# **2022 Pinellas County Recycle Guide**

[pinellascounty.org/recycle](http://pinellascounty.org/recycle)

Text-only edition

Pinellas County Solid Waste  
Tampa Bay Times Newspaper in Education

## **What can I recycle?**

- Glass bottles and jars
- Plastic bottles and jugs
- Metal food and beverage cans
- Cartons
- Paper and cardboard

## **Everything clean and dry**

- No caps
- No lids
- No straws
- No food
- No shredded paper
- No plastic bags

## **How does recycling work?**

### **Learn how your recyclables are sorted at a Materials Recovery Facility (MRF).**

1. Trucks deposit recyclables at a Materials Recovery Facility.
2. Sorters remove items that can injure people or damage equipment down the line. These are items that cannot or should not be recycled at the curb, such as scrap metal or plastic wrap. It is important to Recycle Right, as sorting happens at 3 feet per second!
3. CARDBOARD travels over rotating screens. Smaller materials fall below.
4. NEWSPAPER is sorted out by smaller disc screens and optical scanners.
5. PAPER is sorted. Cans and bottles move on.
6. Magnets remove ferrous METALS (tin & steel cans).
7. GLASS bottles & jars are crushed and sent to storage area.
8. Optical scanners separate the different types of PLASTICS and CARTONS.
9. Eddy currents push non-ferrous metals (ALUMINUM) off the belt.
10. Sorted materials are stored and baled for shipment.
11. Forklift moves bales to storage area and they are checked for quality.
12. Bales are shipped by truck or ship to be used to make new products.

**Important:** Plastic bags and plastic film can wrap around sorting equipment and jam the machines. They are particularly harmful to the recycling process and should not be recycled in curbside or drop-off center locations. Locate the closest drop-offs for plastic bags by using the Where Does it Go? search tool.

**What does NOT belong in my recycle bin? When in doubt, leave it out.**

- Plastic bags or bagged recycling
- Clothing
- Yard waste
- Foam packaging products
- Tissues, paper towels or napkins
- Wires, cords or hoses
- Food waste or food residue

**Going beyond the text: Trash the tanglers**

According to TampaBayRecycles.org, “Items such as plastic bags, cords, wires, tarps and hoses jam and damage sorting equipment used for recycling processing. Not only can this damage the equipment, but workers must manually remove them, a difficult, dirty, and potentially dangerous task” (pictured to the left).

Look at the different items shown in the advertisements of the *Tampa Bay Times*. Using the information on the pages of this publication as a guide, classify the items you find in the newspapers as recyclable or not recyclable. Create a poster showing what can and cannot be recycled. Next, create a full-page advertisement advising people what to recycle and what not to recycle. Share what you have learned with your family and class.

## Where Does it Go? Search Tool

Not sure what to do with it? Take the guesswork out with Pinellas County's Where Does it Go? Search Tool, which offers guidance and local resources for reuse, recycling, and disposal. Where Does it Go? is a searchable database that connects you to the right donation centers, recycling facilities, online takeback programs, and more.

1. Scan this QR code or visit [pinellascounty.org/wheredoesitgo](http://pinellascounty.org/wheredoesitgo)

2. Select “For Homes” or “For Businesses”
3. Type the item in the search field
4. Review search results

## Going beyond the text: Protecting Pinellas

One important way to protect our community is by not littering. Littering may seem like a quick way to get rid of something, but garbage that is thrown on the ground, into the waterways or into the waste stream doesn't really go away. It becomes unsightly and creates big problems for animals and people. Litter cleanup is costly and time consuming, and it can do widespread damage to the environment.

Research this information on the Keep Pinellas Beautiful website, [kpbcares.org](http://kpbcares.org). Write a paragraph describing what your school grounds would look like if all the drivers passing by littered at the school. On a separate sheet of paper, list at least 10 items you think they might throw away. Based on the paragraph that you wrote, create an advertisement persuading people not to pollute or litter. Cut out words, headlines and pictures from the *Tampa Bay Times* for your ad. Make a full-page ad for the *Times*.

## **Recycling Drop-Off Centers**

### **BELLEAIR**

- John J. Osborne Public Works Building • 1075 Ponce de Leon Blvd.

### **DUNEDIN**

- Highlander Park Recycling Site • Ed Eckert Dr., across from Highlander Pool
- Lake Haven Recycling Center • 817 Lake Haven Road

### **CLEARWATER**

- Clearwater Solid Waste Facility • 1701 N Hercules Ave.
- Pinellas County Government Center • 29582 U.S. 19 N, west side, south of Curlew Road
- Sand Key Park • 1060 Gulf Blvd.
- Walmart • 23106 U.S. 19 N, southeast corner of parking lot

### **GULFPORT**

- 49th Street Neighborhood Center • 1617 49th St. S

### **INDIAN ROCKS BEACH**

- Brown Park • Bay Blvd. and Second St.
- Indian Rocks Beach Nature Preserve • 903 Gulf Blvd.
- Indian Rocks Historical Museum • 203 Fourth Ave.
- Kolb Park • 1507 Bay Palm Blvd.

### **INDIAN SHORES**

- Indian Shores Town Hall • 19305 Gulf Blvd.

### **LARGO**

- Bank of America • 10900 Seminole Blvd.
- Hamlin Boulevard 4-H • 14644 113th Ave. N
- Pinellas County Extension • 12520 Ulmerton Road, north of Ulmerton Road, entrance on 125th St. N Frontage Road
- Starkey Road Recycling Center • 1551 Starkey Road, north of Ulmerton Road, south of East Bay Dr.
- Tri-City Plaza • U.S. 19 N and East Bay Dr., behind Ross store

### **PALM HARBOR**

- Curlew Retention Pond • 1740 Curlew Road, between Belcher Road and CR 1
- John Chesnut Sr. Park • 2200 East Lake Road
- William E. Dunn Water Reclamation Facility • 4111 Dunn Dr., Off Alt U.S. 19 N

### **REDINGTON SHORES**

- Redington Shores Town Hall • 17425 Gulf Blvd.

## **SAFETY HARBOR**

- Safety Harbor Fire Station 53 • 3095 McMullen-Booth Road
- Safety Harbor Public Works • 1200 Railroad Ave.

## **SEMINOLE**

- Lake Seminole Park • 10015 Park Blvd., east of Seminole Blvd.

## **ST. PETERSBURG**

- City of St. Petersburg Recycling/Brush Sites
  - 1000 62nd Ave. NE
  - 7750 26th Ave. N
  - 2453 20th Ave. N
  - 2500 26th Ave. S
  - 4015 Dr. MLK Jr. St. S
- Clearview United Methodist Church • 4515 38th Ave. N
- Crescent Lake Park • 1320 Fifth St. N
- Pinellas County Solid Waste • 2855 109th Ave. N, next to HEC3
- St. Petersburg Municipal Marina • 300 Second Ave. SE

## **TARPON SPRINGS**

- A.L. Anderson Park • 39699 U.S. 19 N, between Klosterman Road and Tarpon Ave.
- Brooker Creek Education Center • 3940 Keystone Road
- Tarpon Springs Fire Rescue Station 70 • 1023 Gulf Road
- Tarpon Springs Yard Waste Facility • 898 S Levis Ave.

## **TIERRA VERDE**

- Fort De Soto Park boat ramp overflow parking area - 3600 Pinellas Bayway S
- Fort De Soto Park campground - 3500 Pinellas Bayway S

**Scan this QR code for an interactive online map of the Recycling Drop-Off Centers.**

## Going beyond the text: Improve your recycling knowledge

As Recycle Across America notes, “Every day, the public throws millions of tons of garbage (food waste, diapers, plastic bags, wrappers, Styrofoam™, coffee cups, plastic straws, garden hoses, etc.) into recycling bins. That ‘garbage’ contaminates the good recyclables, hence the term ‘contamination.’”

Think about the following questions:

- What is recycling?
- What is the science behind recycling?
- What items can be recycled in Pinellas County?
- What items cannot be recycled and why?
- Why do people put nonrecyclable items into recycle bins?
- What are the problems of contaminating recycle bins with inappropriate items?

Working in small groups, brainstorm the questions. Create a chart listing what you know, what you need to know and what you hope to learn. Write down all your ideas before you begin the research. Research this topic on the Keep Pinellas Beautiful website, [kpbcares.org](http://kpbcares.org) and the *Tampa Bay Times*. Using the information you researched and discussed with your group, create a plan to improve people’s knowledge about recycling and the way they recycle in Pinellas County.

Write out your plan as an outline and create a graphic organizer, cartoon, infographic or 3-D representation to share with your class and family. In your plan, include how you will not only increase clean recycling, but also decrease contamination in recycling bins. Create an advertising campaign to go along with your plan. Look in the *Tampa Bay Times* for effective advertisements, images and slogans. Use the ideas and images from this publication and the Pinellas County Recycling website for ideas. Brand your campaign for Pinellas County residents.

**Florida Standards:** ELA.312.R.2.11; ELA.312.R.2.2; ELA.312.R.2.3; ELA.312.R.3.2; ELA.312.R.3.3; ELA.312.C.1.1; ELA.312.C.2.1; ELA.312.C.3.1; ELA.312.C.4.1; ELA.312.V.1.1; ELA.312.V.1.3; LAFS.312.L.1.1; LAFS.312.L.1.2; LAFS.312.L.2.3; LAFS.312.L.3.4; LAFS.312.RI.1.1; LAFS.312.RI.1.2; LAFS.312.RI.1.3; LAFS.312.RI.2.6; LAFS.312.RI.3.7; LAFS.312.RST.1.3; LAFS.312.RST.3.7; LAFS.312.RST.3.9; LAFS.312.SL.1.1; LAFS.312.SL.1.2; LAFS.312.SL.1.3; LAFS.312.SL.2.4; LAFS.312.SL.2.5; LAFS.312.SL.2.6; LAFS.312.W.1.1; LAFS.312.W.1.2; LAFS.312.W.1.3; LAFS.312.W.2.4; LAFS.312.W.2.5; LAFS.312.W.2.7; LAFS.312.W.3.9; SC.38.N.1.1; SC.38.N.1.4; SC.38.N.1.5; SC.912.L.17.14; SC.912.L.17.18; SC.912.L.17.19

## **We've got you covered!**

Mulch helps retain soil moisture, protects plants, and inhibits weed growth. It gives your landscape a neat, uniform appearance and is a great Florida-Friendly choice for hard-to-mow areas and shady spots.

To learn more about the Florida-Friendly Landscaping™ Program through the UF/IFAS Extension, visit <https://ffl.ifas.ufl.edu/>.

## **Free mulch pick-up locations**

Instead of buying mulch, get it for free! Free mulch is available to Pinellas County residents at the sites below — just bring a pitchfork or shovel and take as much as you need. For pickup truck or trailer loads, be sure to come prepared with a tarp or vehicle cover to keep your mulch load secured, as required by law.

### **A.L. Anderson Park**

39699 U.S. 19 N, Tarpon Springs  
727-464-7500

### **Bicentennial Park**

East of 565 Tom Stuart Causeway  
Madeira Beach  
727-543-8154

### **John Chesnut Sr. Park**

## Going beyond the text: Measuring your carbon footprint

According to the World Health Organization, a carbon footprint is a measure of the impact your activities have on the amount of carbon dioxide (CO<sub>2</sub>) produced through the burning of fossil fuels and is expressed as a weight of CO<sub>2</sub> emissions produced in tons. In other words, a carbon footprint is the total amount of greenhouse gases, which include carbon dioxide and methane, that are generated by our actions. You can calculate your carbon footprint using the United States Environmental Protection website, [epa.gov/carbon-footprint-calculator](http://epa.gov/carbon-footprint-calculator). You can compare your footprint to your classmates'. Look for articles about the environment and carbon footprint in the archives of the *Tampa Bay Times*. Write a blog post using the information. Include tips about how Pinellas County residents can reduce their total footprint.

**Florida Standards:** ELA.312.R.2.11; ELA.312.R.2.2; ELA.312.R.2.3; ELA.312.R.3.2; ELA.312.R.3.3; ELA.312.C.1.1; ELA.312.C.2.1; ELA.312.C.3.1; ELA.312.C.4.1; ELA.312.V.1.1; ELA.312.V.1.3; LAFS.312.L.1.1; LAFS.312.L.1.2; LAFS.312.L.2.3; LAFS.312.L.3.4; LAFS.312.RI.1.1; LAFS.312.RI.1.2; LAFS.312.RI.1.3; LAFS.312.RI.2.6; LAFS.312.RI.3.7; LAFS.312.RST.1.3; LAFS.312.RST.3.7; LAFS.312.RST.3.9; LAFS.312.SL.1.1; LAFS.312.SL.1.2; LAFS.312.SL.1.3; LAFS.312.SL.2.4; LAFS.312.SL.2.5; LAFS.312.SL.2.6; LAFS.312.W.1.1; LAFS.312.W.1.2; LAFS.312.W.1.3; LAFS.312.W.2.4; LAFS.312.W.2.5; LAFS.312.W.2.7; LAFS.312.W.3.9; SC.38.N.1.1; SC.38.N.1.4; SC.38.N.1.5; SC.912.L.17.14; SC.912.L.17.18; SC.912.L.17.19

## Household electronics and chemicals

Pinellas County offers free options for residents to dispose of unwanted household electronics and chemicals:

### Household Electronics and Chemical Collection Center (HEC<sub>3</sub>)

Monday – Saturday, 7 a.m. to 5 p.m.  
2855 109th Ave. N., St. Petersburg  
[pinellascounty.org/hec3](http://pinellascounty.org/hec3)

### Mobile collection events

Select Saturdays, 9 a.m. to 2 p.m.  
[pinellascounty.org/solidwaste/mobileoptions](http://pinellascounty.org/solidwaste/mobileoptions) or scan this QR code for the Mobile Collection Events calendar.

## What to bring

### Automotive Products

- Oils and Antifreeze (Limit: 5 gallons)
- Gasoline and Diesel containers. (Limit: 5 five-gallon DOT containers. No tanks)

### Rechargeable batteries

- Including lithium-ion, mercury, nickel cadmium, and lithium

### Electronics

- Cell phones
- Computers
- Monitors
- Items with rechargeable batteries that cannot be removed
- TVs (must be whole) (Limit: 6 TVs, 5 computers)

### Household Chemicals

- Adhesives/epoxies
- Aerosols
- Cleaners

### **Lawn & Garden Chemicals**

- Pesticides/herbicides
- Fertilizers
- Sprayers

### **Mercury-containing Devices**

- Thermometers
- Thermostats
- Fluorescent bulbs (Limit: 12)

### **Paint Products**

- Paints/stains
- Solvents

(Limit: 20 one-gallon, 5 five-gallon)

### **Pool & Spa Products**

- Chlorine
- Muriatic acid
- Cleaners/clarifiers

### **Signal Flares**

- Marine
- Road

### **What NOT to bring**

- **Appliances**
- **Vehicle (lead-acid) Batteries**
- **Fire Extinguishers**
- **Electronics such as stereos, DVD players and printers**
- **Medicine & Sharps**
- **Propane Tanks (over 1 lb.) or other compressed gases**

## **Sustainable materials management**

**Sustainability:** A method of harvesting or using a resource so that the resource is not depleted or permanently damaged.

- Merriam-Webster Dictionary

**Zero Waste:** The conservation of all resources by means of responsible production, consumption, reuse and recovery of products, packaging and materials without burning and with no discharges to land, water or air that threaten the environment or human health.

- Zero Waste International Alliance

Pinellas County operates an integrated solid waste management system that promotes waste reduction and environmentally preferable waste management practices. The county follows the United States Environmental Protection Agency's Sustainable Materials Waste Management Hierarchy.

### **Most Preferred**

- Source Reduction & Reuse
- Recycling & Composting
- Energy Recovery
- Treatment & Disposal

### **Least Preferred**

### **6 tips to reduce waste and live sustainably:**

1. Use a reusable water bottle instead of single-use plastic bottles.
2. Travel with a "zero waste kit" with reusable cutlery, napkins and containers.
3. Replace cotton balls and makeup wipes with washable cotton pads.
4. Use reusable shopping bags instead of single-use plastic bags.
5. When buying produce, bring your own reusable mesh bags.
6. Take the Reduce Your Use (RYU) Tampa Bay pledge at [reduceyourusetampabay.org](http://reduceyourusetampabay.org) or by scanning the QR code below.

## Going beyond the text: Teamwork

Protecting our environment takes teamwork. By understanding how the actions of humans affect and influence the environment, we can make better choices for our communities. Look for articles in the *Tampa Bay Times* that show examples of people, groups or organizations that are working to protect the fragile environment in Pinellas County. Make a list of those involved and the actions they are taking. Select one of the environmental groups or issues you have read about and do some research about it. Then think about what actions you can take to protect the environment. Share your ideas with others by writing a short essay that incorporates the information you have learned.

## **Recycling is key to reach our goal of zero waste to landfill by 2050**

Pinellas County is home to nearly one million permanent residents and sees over 14 million visitors annually. As the population increases, so does waste and it doesn't just go 'away.'

All garbage is taken to the Pinellas County Solid Waste Disposal Complex, where it is managed using a state-of-the-art Waste-to-Energy (WTE) facility and the Bridgeway Acres Landfill. The resulting ash from WTE is landfilled. Ash takes up 90 percent less space in the landfill than the garbage would have. Our WTE facility is fast approaching its operating capacity, meaning that more garbage will have to be landfilled without the added benefit of volume reduction. Currently, the landfill is expected to last another 80 years. If we were to stop recycling, the landfill would only have 60 years left.

The Department of Solid Waste has a 30-year Solid Waste Master Plan with a goal of zero waste to landfill by 2050. In the planning process, it was identified that about one third of the garbage received at the Solid Waste Disposal Complex could have been recycled! By recycling right and reducing waste, we will conserve natural resources and energy while extending the life of the one and only landfill in Pinellas County.

The Solid Waste Master Plan can be found online at [pinellascounty.org/solidwaste/masterplan](http://pinellascounty.org/solidwaste/masterplan) or by scanning this QR code.

## **In Pinellas County, garbage is used to make electricity!**

1. Garbage in Pinellas County is taken to the Solid Waste Disposal Complex, where 80 to 90 percent of it is burned as fuel in the County's Waste-to-Energy (WTE) facility. The WTE facility produces enough electricity to power 45,000 homes each day. The gas produced is cleaned by state-of-the-art pollution control systems.
2. Magnets are used to recover ferrous metals, such as iron and steel, from the ash. Electrical currents called eddy currents are used to recover nonferrous metals such as aluminum and copper. These metals are then sold for recycling.
3. The leftover ash, which takes up 90 percent less space than the original garbage, is landfilled for disposal.

**Questions or comments?** Email [recycle@pinellascounty.org](mailto:recycle@pinellascounty.org) or call 727-464-7500.

For more recycling, reuse, and disposal options, visit the Where does it Go? Search Tool online at [pinellascounty.org/wheredoesitgo](http://pinellascounty.org/wheredoesitgo) or by scanning this QR code.

### **About NIE**

The Tampa Bay Times Newspaper in Education program (NIE) is a cooperative effort between schools and the Times Publishing Co. to encourage the use of newspapers in print and electronic form as educational resources — a “living textbook.” Our educational resources fall into the category of informational text, a type of nonfiction text. The primary purpose of informational text is to convey information about the natural or social world.

NIE serves educators, students and families by providing schools with class sets of the Pulitzer Prize-winning *Tampa Bay Times* plus award-winning original educational publications, teacher guides, lesson plans, educator workshops and many more resources — all at no cost to schools, teachers or families.

Each year, NIE provides more than 1 million print copies and 10 million digital editions of the Times to area classrooms free of charge thanks to our generous subscribers and individual, corporate and foundation sponsors. NIE teaching materials cover a variety of subjects and are aligned to the Florida Standards.

For more information about NIE, visit [tampabay.com/nie](http://tampabay.com/nie), call 727-893-8138 or email [ordernie@tampabay.com](mailto:ordernie@tampabay.com). Follow us on Twitter at [twitter.com/TBTimesNIE](https://twitter.com/TBTimesNIE). Find us on Facebook at [facebook.com/TBTNIE](https://facebook.com/TBTNIE).

## Florida Standards

This publication and its activities incorporate the following Florida Standards for elementary, middle and high school students.

B.E.S.T: ELA.312.F.1.3; ELA.312.R.2.11; ELA.312.R.2.2; ELA.312.R.2.3; ELA.312.R.3.2; ELA.312.R.3.3; ELA.312.C.1.1; ELA.312.C.2.1; ELA.312.C.3.1; ELA.312.C.4.1; ELA.312.V.1.1; ELA.312.V.1.3 Language Arts: LAFS.312.L.1.1; LAFS.312.L.1.2; LAFS.312.L.2.3; LAFS.312.L.3.4; LAFS.312.RI.1.1; LAFS.312.RI.1.2; LAFS.312.RI.1.3; LAFS.312.RI.2.6; LAFS.312.RI.3.7; LAFS.312.RST.1.3; LAFS.312.RST.3.7; LAFS.312.RST.3.9; LAFS.312.SL.1.1; LAFS.312.SL.1.2; LAFS.312.SL.1.3; LAFS.312.SL.2.4; LAFS.312.SL.2.5; LAFS.312.SL.2.6; LAFS.312.W.1.1; LAFS.312.W.1.2; LAFS.312.W.1.3; LAFS.312.W.2.4; LAFS.312.W.2.5; LAFS.312.W.2.7; LAFS.312.W.3.9 Science: SC.6.N.1.1; SC.6.N.1.4; SC.6.N.1.5; SC.7.N.1.1; SC.8.N.1.1; SC.35.N.1.1; SC.35.N.1.2; SC.35.N.1.3; SC.912.L.17.14; SC.912.L.17.18; SC.912.L.17.19; SC.912.N.1.4; SC.912.N.4.1; SC.912.N.4.2 S
