What's an onsite dental clinic?

Jet Dental staff bring equipment and dental chairs separated by partitions to your worksite.

What services are available?

- Full preventive appointment including X-rays, cleaning, and a comprehensive exam by a dentist
- Cavity fillings
- Deep cleaning (copay or coinsurance applies)
- Professional teeth whitening (\$249 fee is not covered by insurance. Preventive exams are prioritized. Check in February for openings and schedule as a separate appointment.)

How much does it cost?

- A preventive appointment is free if you are on the County dental plan. Additional services such as fillings are subject to coinsurance and copays.
- If you are on another plan, ask your insurance if Jet Dental is in network.

Do I need to use leave time?

Yes. Appointments typically take about one hour.
