2. VAR-23-28 (Conditional Approval)

Application of Dolphin Real Estate Holdings, LLC., through Sean P. Cashen, P.E., Gulf Coast Consulting, Inc., Representative, for a variance to allow for the proposed onsite building to occupy 23.4 percent of the primary roadway frontage along US 19 where the Pinellas County Land Development Code District Design Criteria requires 40 percent in a CP zone for the property located at 35952 US Highway 19 North in Palm Harbor.

3. VAR-23-29 (Conditional Approval)

Application of Eduardo Martinez for a variance to allow for the construction of a 1,628 sq. ft. detached accessory dwelling unit where 750 sq. ft. is the maximum permitted for the property located at 9225 95th Street North in unincorporated Seminole.

4. VAR-23-22 (Continued to March 6, 2024, Hearing)

The applicant, Couture Revocable Trust (the “Applicant”), owns the property at 600 Pennsylvania Avenue, Palm Harbor (the “Applicant Property”). The Applicant seeks a variance (the “Variance”) to Section 58-555(b)(2) of the Pinellas County Code (the “Code”) to construct a new observation pier (the “Pier”) within an easement (the “Easement”) that the Applicant holds over a neighboring property owned by Ryan’s Woods Townhomes Homeowners Assn, Inc. (the “Site Property”). The Applicant Property features a single-family home and large yard. The Site Property is undeveloped at the northern end and supports multi-family townhomes to the south.

The Easement, which is 50’ wide from north to south, extends west from a small piece of upland into a finger canal off Sutherland Bayou. Notably, the north boundary of the Easement mirrors the north boundary of the Site Property. This latter point is significant because Code Section 58-555(b)(2) requires that the Pier be built at least 50 feet from the adjacent property to the north, which is a single-family residential property located at 672 Soundview Drive, Palm Harbor owned by Michael and Kristine Janish (the “Janish Property”). It follows that to fall within the Easement boundaries, the Pier must also fall within the 50-foot setback, hence the need for this variance. Specifically, the Applicant proposes placing the most northern part of the Pier 33.5’ away from the Janish Property, thus a variance of 16.5’ is required.

The Pier totals 576 square feet of decked area; it includes a kayak lift and stairs landward of the terminal platform. The Pier will not impact any submerged vegetation such as seagrass, but the 24’ by 4’ section of walkout will be placed through a mangrove fringe. Given depth constraints, the Pier cannot accommodate the mooring of motorized vessels.
