eGIS Steering Committee
Meeting Minutes
June 29th, 2026
1:30pm – 2:25pm
Facilitator – Jamie Munro, GIS Manager

In Attendance

Committee Members
Mike Twitty – Chair – Pinellas County Property Appraiser
Jason Malpass – Vice Chair - Pinellas County Sheriff's Office
Marc Gillette – Supervisor of Elections - Absent
Tom Almonte – Assistant County Administrator - Absent
Robert Mills – Office of Resiliency and Asset Management

Attendees – Internal
Steven Alston – OFAM
Emilly Baechle – Parks
Thuyen Buendia – Business Technology Services/EGIS
Kelly Dickie – Business Technology Services/EGIS
Luke Hanley – Public Works
April Klimkoski – Business Technology Services/EGIS
James McDermott – Construction & Property Mgmt
Dayne Morris – Building/Development Review
Curt Nielsen – Property Appraiser
Kevin O'Hara – Supervisor of Elections
Eric Pieniak – Utilities
Allison Reinbolt – Business Technology Services/EGIS
Jeff Rohrs – Business Technology Services
Oladapo Satiregun – Business Technology Services/EGIS
Alan Shellhorn – Housing/Community Development
Marie Wilson – Business Technology Services
Smita Ambadi – Housing/Community Development
Adam Biernaski – Construction & Property Mgmt
Jason Clemis – Business Technology Services/EGIS
Renee Duffey – Business Technology Services/EGIS
Michael Howsare – Building/Development Review
Sue Leverette – OFAM
Don Melone -
Jamie Munro – Business Technology Services/EGIS
Kaitlyn Nieman – Forward Pinellas
LeeAnna Pham – Utilities
Morgan Pyle – Safety & Emergency Svs/911
Jared Ritch – Solid Waste
Ben Rothermel – Public Works
Raymond Schultz – Safety & Emergency Svs/911
Toni Smith – Business Technology Services/EGIS
Bryan Zumwalt – Business Technology Services

Attendees – External
Abbie Poag - Largo
Matt Smith – Tarpon Springs
Dan Mayer - Clearwater

Agenda

1. Call to Order
2. Welcome and Introductions
3. Citizens to be Heard
4. Approval of Minutes from the March 2026, meeting
5. Public Safety GIS Discussion
6. Esri Licensing Updates
7. Working Group Guideline Updates
8. Open Discussion
9. Upcoming Meetings
10. Adjournment

Call to Order

The meeting was called to order at 1:30pm by Mike Twitty. Steering Committee members present were Mike Twitty, Jason Malpass and Robert Mills.

Welcome and Introductions

No new introductions were needed.

Citizens to be Heard

No citizens were in attendance.

Approval of Minutes

Mike Twitty asked for motion to approve the minutes for the March 5th, 2026, meeting.
Motion to approve by Jason Malpass and seconded by Robert Mills, all in favor. Minutes approved.

Public Safety GIS Discussion

Director Jason Malpass started the discussion with a high-level overview of the Public Safety GIS nuances. Currently the county and local jurisdictions for Public Safety utilize different systems for their answering/dispatch calls. The PRIME consortium was intended to unify dispatch into one system and there were challenges during the Hexagon implementation. Public Safety Mapping also has challenges across all the jurisdictions. Other situational awareness software systems were discussed including Peregrine (awareness dashboards), Fuseus (some Peregrine overlaps for situational awareness), CRG (school plans in overlay grid maps), SARCOP (search and rescue). Data workflows were also discussed. The different jurisdictions in the county handle address and annexation data workflows differently and it is unknown if the information flows bi-directionally in all cases. As for annexations, the county will adjust the annexation data when the ordinances are recorded with the clerk. When working with PRIME, Director Malpass fielded complaints stemming from maps and routing issues. Director Malpass is asking if the working group would be able to help with the business analysis/process.

Jamie Munro said that the working group could work together or create a subgroup to help with the analysis. He called on Morgan Pyle from 911, who handles the 911 addresses. Morgan was not aware of any major issues with the 911 addresses. Mike Twitty asked if those addresses were just unincorporated or all county and Morgan confirmed it was all county, as well as for strip stores, if there is knowledge of the units. Morgan said that the secondary PSAPs use their own addressing systems. Abbie Poag from Largo, messaged in the chat that City of Largo uses Central Square CAD and has not had its addresses updated since 2016. They are currently missing approximately 22000 addresses in Largo alone and are working with Central Square to fix this issue.

Bryan Zumwalt added that for this to be a true analysis, the county systems and the other PSAPs systems need to be identified and to determine the commonalties for a unified basemap. Director Malpass added that he would like to see an inventory of consumers and where the data being used comes from, and what data is the most reliable and authoritative to share. This is also where the metadata is important. Morgan Pyle also mentioned that in the future it would be good when contracting with vendors to create standards on the formats needed. Ray Schultz (911) added that some of the local PSAPs may not have dedicated resources concerning this data but agreed that any data needs to be kept up to date.

Jamie Munro said that the Working Group can meet on this and do some research and then present it back to the Steering Committee. Director Malpass said that he would be happy to work with the working group and would be able to help engage 911 partners. Raymond Schultz suggested Morgan Pyle from 911 be part of the subgroup to investigate this more. Jamie Munro also mentioned that with Forerunner there is a lot of coordination with 911, Building and Development Review (Permitting) and Property Appraiser to create more detailed addresses. This may be able to come into use also. It was confirmed that Public Safety data in question is not only Addresses, but all data concerning Public Safety.

Director Malpass proposed the following for the Working Group:

1. Analyze the specific mapping data requirements, ingestion formats, and maintenance workflows across all county public safety systems (including Real Time Intelligence Center platforms, data-intelligence environments, Computer Aided Dispatch (CAD), and search-and-rescue systems).
2. Identify technical and procedural bottlenecks preventing seamless, bi-directional data sharing.
3. Propose a sustainable governance model and technical architecture (such as automated API data-pipelines or centralized ESRI feature services) that provides a definitive, continually up-to-date geographic foundation for all public safety stakeholders and platforms, eliminating redundant workflows.

Discussion ended with acknowledgement that Director Malpass would work with the Working Group and public safety partners to get volunteers to participate in the subgroup on these topics and updates would be provided at subsequent eGIS Steering Committee meetings.

Esri Licensing Updates

Allison Reinbolt updated the committee with some licensing updates. The Sheriff's Office has a new ArcGIS Online organization which is separate from our Enterprise ArcGIS Online organization. It will have the same licensing but will be used for non CJIS data needs such as local blue-sky search and rescue needs. It will also have the capability to collaborate with multiple agencies. Users are currently being added to the organization.

There are still discussions going on about how to handle the Fire Districts and their usage of the local SARCOP application. BTS is currently working on a decision package on this and it may be a contract amendment to the 2030 Enterprise License Agreement. Also, with the migration of our major applications (WebGIS, PCUGIS and DRS Front Counter) additional licenses will be needed. EGIS will be working with departments on these needs.

Working Group Guideline Updates

The Working Group approved some changes to their Operating guidelines and presented them to the Steering Committee.

- Removing the named primary and secondary contacts for each of the 15 different departments. Those contacts will be kept up to date on the SharePoint site.
- Addition of a Secretary position and mention of a rotation system for moving from Vice Chair to Chair and Secretary to Vice Chair. No terms were included in the change.

Open Discussion

A slide was presented with upcoming events and conferences.

It was announced that with Jamie Munro leaving the county on July 31st, Allison Reinbolt, current GIS Solutions Architect, will be taking on the role as GIS Manager as of August 1st. Congratulations to Allison and Good Luck to Jamie on his next adventure. Mike Twitty thanked Jamie for leading the GIS since 2018 and said that he will be missed. He mentioned that Jamie helped move the county forward in all aspects of GIS. Bryan Zumwalt also added that Jamie will be missed and that he was one of the most effective GIS managers that EGIS has had. Jamies knowledge with Asset Management also helped the county. Jeff Rohrs reiterated that Jamie will be missed and that he came in at a critical point and accomplished a lot along the way. Jamie thanked everyone for the nice comments and said that Allison will step in and continue the great work.

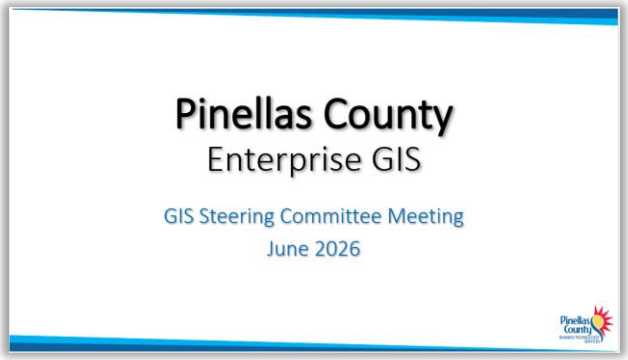

Upcoming Meetings

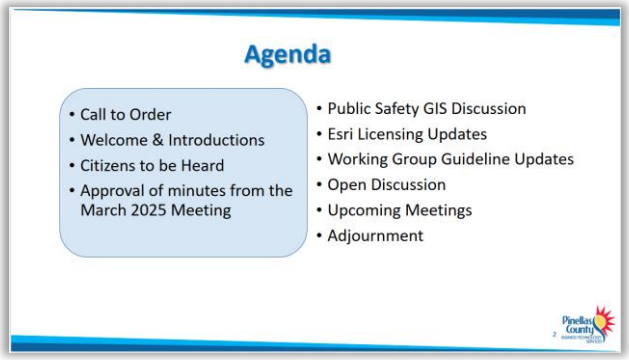

A slide was shown for the upcoming meetings. Next Steering Committee is September 3rd, 2026.

Adjournment

Meeting adjourned at 2:25pm.

PowerPoint Presentation

Public Safety GIS Discussion

Agenda

- Call to Order
- Welcome & Introductions
- Citizens to be Heard
- Approval of minutes from the March 2025 Meeting
- Public Safety GIS Discussion
- Esri Licensing Updates
- Working Group Guideline Updates
- Open Discussion
- Upcoming Meetings
- Adjournment

Esri Licensing Updates

- NEW – Sheriff ArcGIS Online
- Working with Safety & Emergency Services to determine additional license needs
- Validating all user/department needs

Working Group Operating Guideline Updates

- Departments listed instead of named individuals
- Addition of a Secretary and regular rotation of officers from Secretary to Vice-Chair, and from Vice-Chair to Chair

Working Group Operating Guidelines (Existing)

4.2 Composition

The Working Group will be composed as follows:

Department	Primary	Secondary
Building Department	Blake Lyon	David Howdeshell
Business Technology Services	Jamie Munro	Belinda Huggins
Department of Administrative Services	Diana Sweeney	Keith Royster
Emergency Management	Joe Borries	Caleb Jones
Forward Pinellas	Jared Austin	Linda Fisher
Human Services	Deborah Berry	Tim Burns
Parks and Conservation	Steve Harper	Emilly Baechle
Planning	Alan Shellhorn	Corey Gray
Property Appraiser	Steven Smith	Marie Swift
Public Works	Marcia Copy	Jamie Frank
Safety & Emergency Services	Rick Cody	Morgan Pyle
Sheriff	Jill DeGood	Jacqueline Danzig
Solid Waste	Joshua Kirchmann	Shawnee McQuillen
Supervisor of Elections	Nicole Sokolowski	David Wise
Utilities	Jeremy Capes	Joel Kelsey

Existing Guideline

Working Group Operating Guidelines (Updated)

4.2 Composition

The Working Group will be composed of one Primary Member and one Secondary Member from each agency:

- Building Department Review Services
- Business Technology Services
- Department of Administrative Services
- Emergency Management
- Forward Pinellas
- Human Services
- Parks and Conservation
- Planning
- Property Appraiser's Office
- Public Works
- Safety & Emergency Services
- Sheriff's Office
- Solid Waste
- Supervisor of Elections
- Utilities

The current list of individual representatives designated by each agency will be maintained on the Pinellas County Enterprise GIS (EGIS) Working Group homepage.

Working Group Operating Guidelines (Updated & Existing)

4.3 Chair, Vice Chair, and Secretary

The Working Group will nominate and vote on a Chair and Vice Chair from the Working Group. The Chair will preside over the Group sessions and is a voting member. The Chair will also be responsible for representing the Working Group at Executive Committee meetings. The Secretary is responsible for agendas and meeting minutes. The Secretary may serve as the next Vice Chair at the end of the current term. The Vice Chair will fill-in for the Chair as needed and may serve as the next Chair at the end of the current Chair's term.

4.3 Chair and Vice Chair

The Executive Committee has the authority (if necessary) to approve the Working Group nomination and voting on a Chair and Vice Chair for the Working Group. The Chair will preside over the Working Group sessions and is a voting member. The Chair will also be responsible for representing the Working Group at Executive Committee meetings. The Vice Chair will fill-in for the Chair as needed and may serve as the next Chair at the end of the current Chair's term.

Responsibilities Include:

- Chairs the Working Group meetings.
- Reports project status as well as other presentations to the Executive Committee.
- Develops and approves meeting agendas as well as calling the meetings.

Existing Guideline

Agenda

- Call to Order
- Welcome & Introductions
- Citizens to be Heard
- Approval of minutes from the March 2025 Meeting
- Public Safety GIS Discussion

Open Discussion - Upcoming Conference Events

- Esri Safety & Security Summit (2 attending)
  - July 11 – 15, 2026, San Diego, CA
- Esri User Conference (13 attending)
  - July 13 – 17, 2026, San Diego, CA
  - 25 Complimentary Passes
- Esri Infrastructure Management & GIS Conference
  - October 27-29, 2026, Palm Springs, CA
- Trimble Dimensions User Conference
  - November 9-11, 2026, Las Vegas, NV
- Esri Planning Directors Summit
  - November 3-4, 2026, Chicago, IL
- GeoFlo Summit
  - November? 2026, Local Area
- Esri Developer Summit
  - March 9-12, 2027, Palm Springs, CA

2026 User Conference Complimentary Passes

Department	For
BTS	Renee Duffey
	April Klimkoski
Utilities	Courtney Dobbertin
	Christopher Richardson
	Kaitlyn Nielsen
	Erwin Ernestine
	Hailey Kammerer
	Gunner Mitchell
Property Appraiser	Curt Nielsen
Forward Pinellas	Nicole Galasso
Safety & Emergency Services/911	Morgan Pyle
Pinellas County Sheriff's Office	Samantha Mendenhall
	Amanda Canaynay
